caBIG - Architecture Workspace

Agenda for Teleconference
1:00 pm – 3:00 pm EDT

Friday, July 16th, 2004

AGENDA

1.   Introductions / Roll-Call

2.   Mobius Project – Presentation & Demo
- Presentation (~45 minutes)
  - Description of Mobius
  - How does the Mobius framework fit in the caBIG Initiative and Architecture?
  - What are the potential roles Mobius can play within the Grid prototype project presented in the previous teleconference?

- Demos (~30 minutes)
  - A walk-through of the Mobius infrastructure
    - How to set up Mobius services (GME, Mako, VMako)
    - How to create and register XML schemas
    - How to create databases and submit instance documents
    - How to query the databases
  - Short demonstrations of applications that are implemented using Mobius
    - Integration of genomic and molecular databases
    - Management and analysis of image data

3.   Feedback on the "caGRID" (Proof-of-Concept)
- Feedback on the Demo (from June 24th – Teleconference)
- Availability of the "caGRID" White Paper

4.   Architecture Workspace Face-to-Face session
- Discuss briefly the Agenda

5.   Action Items & Next Steps
